Website: https://www.google.com/

a 19 year old web developer from Salé, Morocco.
I have been interested in IT and Web development for a long time, that's why I decided to become a Web developer.

SKILLS

- JavaScript
- Html/CSS
- React

- Material Ui
- Git/GitHub
- jQuery

- Figma
- Alan Ai
- Sass

Experience

- Made an ecommerce website using react, JavaScript, commerce js, material Ui, CSS

- Created a website that tracks covid-19 cases all around the world

- Built a Chat app for me and my friends to use

- Made a website that gives the latest news using speech recognition

All of these websites are fully responsive, and you can find them in my github.

Education

These are the courses that I took to learn web development

- Git and GitHub https://www.udemy.com/course/git-started-with-github/
- JavaScript https://www.udemy.com/course/modern-javascript-es6-for-react-js/
- React https://www.udemy.com/course/react-js-a-complete-guide-for-frontend-web-development/

INTERESTS

- Learning new web technologies and improving the ones that I know
- Health and running
- Learning new languages
